April 28, 2017 MAAN Steering Committee Minutes

Just a few follow up items from today’s meeting:

- **AMP updates:**
  - Cohort 2 is coming to an end and the closing ceremony on May 16th.
  - Applications for Cohort 3 will sometime in June (Date TBA), selections will be made in July, and launch in August.
  - Jon May will be stepping down as Stephanie’s Co-Chair, so a call to current and previous AMP participants will be made and accepted via a self-nomination process. Ideally a co-chair will be named in June so they can be involved in the review/selection process for Cohort 3 and planning activities/meetings for the academic year.

- **RAW updates:**
  - As a reminder, if anyone wants college-specific data collected from the kiosks, please send an email to Troy Lowery.
  - Troy Lowery is stepping down as RAW Chair to turn more of his time and attention to MAAN and Co-chairing the Steering Committee. Sara Montiel will begin serving as Chair of the sub-committee in time for fall 2017 registration.

- We would love for the Steering Committee to take part in the MAAN-iversary lunch on May 11th. We have the Blackstone room for a 2-hr block but you are welcome to drop in and leave for whatever amount of time your schedule allows.

- **Updates from Priyanka’s visit:** The following is the list of what might be listed in the ‘Registration Restrictions’ and ‘Required Prerequisites’ area of a course in the catalog:
  - any Mason-offered course
  - any test score previously coded by Admissions into Banner (see MATH 104/105)
  - any of the following elements associated with a student’s record:
    - Department (note we do not advise restricting by dept – very few courses do so)
    - Field of study (major, minor, concentration, or all of the preceding)
    - Student class (freshman, etc)
    - Student level (undergrad, grad, non degree)
    - Student degree (e.g. BA, BFA, etc)
    - Program (we also do not advise restricting by the specific program code, given that we’ve found it doesn’t work well for students who are double-majors or double-degrees)
    - College
    - Student Attribute (mainly used for Honors or for excluding students terminated from the major)
