INFORMATION TECHNOLOGY, B.S.

2016 - 2017

The BS in Information Technology program aims to meet the existing and emerging needs of industry by educating new IT workers in current IT principles and practices, and in its applications. The program focuses on equipping graduates with effective skills for interacting at the management level as well as the technical level. Graduates fill jobs that focus on the application of IT in an increasing number of emerging sub-disciplines, including network administration, information security, information systems, telecommunications, web development, computer graphics, and data management. The BS in Information Technology program is accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org>.

Admission Requirements

Students who meet Mason's general eligibility requirements may apply for admission to the Information Technology major. Admission is based on the appropriateness of student's academic objectives and the likelihood of the student benefiting from the program. Preference in admission is given to students who have four years of high school mathematics, including pre-calculus.

Degree Requirements

The IT program can be successfully completed in 8 full-time semesters with an average of 15 credits each semester, as shown in the sample schedule. It is also possible for students to complete the degree on a part-time basis. The 120-credit degree requirement consists of Mason Core requirements, IT foundation and core courses, and courses required for the chosen IT concentration area. Students must complete requirements for at least one of six IT concentration areas. Lower division program courses are primarily taught at the Fairfax campus, while upper division program courses are primarily taught at the Science and Technology campus, where many Department of Information Sciences and Technology faculty offices are located. Distance education sections are available for the majority of program courses.

At least 45 semester hours of the degree requirements must be level 300 or above, and at least 30 semester hours toward the BS degree must be earned at George Mason University. Students must have a C or better in any course that satisfies a prerequisite for an IT course. To graduate with the BS in Information Technology, students must have a GPA of 2.75 or better across the IT foundation, core, capstone, and concentration courses. Additionally, students must have a C or better in their foundation, core, capstone, and concentration courses.

IT Foundation, Core, Concentration, and Capstone Requirements

In addition to Mason Core requirements, including humanities and social sciences as well as mathematics and basic sciences, the BS in Information Technology requires IT foundation, core, and concentration courses as described below. The IT major also requires a 7-credit capstone design project, to be completed over a period of two consecutive semesters.

1. Foundation Courses

IT 102 Discrete Structures *or*
 MATH 125 Discrete Mathematics I
 IT 104 Introduction to Computing
 IT 105 IT Architecture Fundamentals
 IT 106 Introduction to IT Problem Solving Using Computer Programming
 IT 206 Object Oriented Techniques for IT Problem Solving
 IT 216 Systems Analysis and Design
 STAT 250 Introductory Statistics I

3. Two-Semester Capstone Sequence

IT 492 Senior Design Project I
 IT 493 Senior Design Project II

2. Core Courses

IT 207 Applied IT Programming
 IT 213 Multimedia and Web Design
 IT 214 Database Fundamentals
 IT 223 Information Security Fundamentals
 IT 300 Modern Telecommunications
 IT 304 IT in the Global Economy
 IT 341 Data Communications and Network Principles
 IT 342 Operating Systems Fundamentals
 IT 343 IT Project Management
 MBUS 300 Accounting in a Global Economy
 SYST 469 Human Computer Interaction

4. Other Requirements

IT 293 Applied IT: Junior Transition
 COMM 100 Public Speaking
 Natural Science with Lab
 Natural Science without Lab
 MATH 108 Introductory Calculus with Business Applications *or*
 MATH 113 - Analytic Geometry and Calculus

Advanced Study: Mason offers students the ability to complete both BS and MS degrees in a shorter time through an Accelerated Masters (MS) program. Choosing to pursue an accelerated MS may affect a student's choice of courses in the BS program. Students should consult with an advisor for assistance. See <http://ist.gmu.edu/go/advising> for more information.

INFORMATION TECHNOLOGY, BS

5. Concentration Area

Students choose one of six concentrations from the list below. To be eligible to choose a concentration, a student must have a B or better grade in the concentration's gateway course. To fulfill the requirements for a concentration, students need 15 credits made up of four courses from their chosen concentration and a fifth course chosen from any of the six concentrations. All concentration courses require a grade of B or better in the prerequisite gateway course.
