

Waitlist Procedures

Important Reminders about Waitlists:

- Not all courses offer a waitlist.
- You will not be automatically registered from a waitlist.
- Your waitlist position does not guarantee issuance of a waitlist override.
- Waitlist overrides are issued as students drop from classes. Multiple overrides could be issued simultaneously.
- **DO NOT** drop from the Waitlist until you have received a Waitlist Override.
- Waitlist overrides expire and are removed if they are not used within **the 48 hour time period**. If the override is removed you will be required to add back to the waitlist. Your waitlist position will most likely change.
- You must check your **Mason e-mail account** daily.
- Waitlist overrides can be viewed via Patriot Web on the Registration Status and Time Ticket, Override Notifications, Waitlist Position screen.
- All waitlists persist until the last day to add of the semester. If you are given an override on the last day to add classes, you will only have until 11:59pm that day to add the class

****Disclaimer: Adding yourself to a waitlist does not guarantee a spot in the course.**
