This degree prepares its graduates to use family-centered and strengths-based approaches to support the health and well-being of individuals and families in diverse communities. Graduates will have a strong interdisciplinary foundation in the HDFS field and competencies in 10 areas as established by the National Council on Family Relations, including:

- internal dynamics of relationships and families
- human growth and development
- family-and community-based program planning, implementation, and evaluation
- social policies and laws affecting families
- family diversity
- research methodology
- professional ethics as related to the HDFS field

The HDFS curriculum prepares students to effectively engage with families across the lifespan and in a variety of service settings and professions, from early childhood education and care to family law and policy advocacy. We offer students 5 concentrations, including:

- child development, education, and services
- adolescent development and services
- adult development and aging
- family health and well-being
- family research, policy, and advocacy

Our program prepares students to critically analyze complex family issues, advocate for families in schools, communities, and in the policy arena, and address social-structural factors contributing to and influencing family functioning, health, and well-being (e.g., poverty and wealth inequality, immigration and illegalization, family homelessness, incarceration, family violence, and discrimination and structural violence such as racism, nationalism, or heterosexism). Students are required to complete a 6-credit internship and integrate research training with service fieldwork. Such an experience is a critical component of HDFS student development and will further prepare our students for graduate education and diverse careers in the human development and family science field.

The HDFS program is a joint academic degree program sponsored by the College of Education and Human Development (CEHD) and the College of Humanities and Social Sciences (CHSS).

Requirements

Degree Requirements

Total credits: minimum 120

Mason Core

Written Communication	6
Oral Communication	3
Information Technology and Ethics	3
Quantitative Reasoning	3
Literature	3
Arts	3
Western Civilization/World History	3
Social and Behavioral Sciences	3
Global Understanding	3
Natural Science	7
Synthesis	3
Total Credits	40

Additional Requirements for the BA

One PHIL or one RELI course:	3
Philosophy (PHIL)	
Religious Studies (RELI)	
Social and behavioral sciences course ¹	3
Non-Western culture	3
Proficiency in a foreign language through the intermediate level (coursework or testing to determine proficiency)	0-9
Total Credits	9-18

¹ This requirement is additional to the Mason Core social and behavioral sciences requirement.

Major Requirements

ECED 401	Developmental Pathways of Diverse Learners, Birth-Adolescence	3
or PSYC 313	Child Development	
ECED 404	Engaging Families of Diverse Young Learners	3
or INTS 321	Parent-Child Relations	
HDFS 200	Individual and Family Development	3
HDFS 250	Family Financial Literacy and Resource Management	3
HDFS 300	Individual and Family Services Delivery	3
HDFS 400	Advanced Family Processes (Mason Core)	3
HDFS 401	Family Law and Public Policy ¹	3
HDFS 498	Internship and Analysis in Human Development and Family Science	3
HDFS 499	Advanced Internship Analysis in Human Development and Family Science	3
SOCI 303	Methods and Logic of Inquiry	3
or PSYC 301	Research Methods in Psychology	
Select one from the following:		3
PSYC 415	Psychological Factors in Aging	
HHS 432	Healthy Aging	

SOCI 341	Sociology of Aging	
Total Credits		33

¹ Fulfills writing intensive requirement.

Concentration in Adolescent Development and Services (ADS)

Select 15 credits from the following or in consultation with your advisor: ¹ 15

ANTH 315	Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective	
COMM 334	Family and Health Communication
